

PROPERTY SERVICES

Green Connect is a not-for-profit social enterprise based in Wollongong NSW.
We employ young people & former refugees in jobs that help the environment and the community.

GARDENING AND LANDSCAPING

Green Connect offers garden tidy-ups and blitzes to prepare properties for sale or lease. Whether it is simply pruning, trimming, and mulching to have the property looking its best, or a larger project to remove a jungle of overgrowth or completely redesign the yard, Green Connect is able to help. We also offer ongoing garden maintenance where needed.

CLEANING

Green Connect has trained and experienced cleaners who use eco-friendly products wherever possible to do end-of-tenancy or pre-open home cleans so that houses and apartments are presented in their best light.

REUSE, RECYCLING AND WASTE REMOVAL

Green Connect works with property owners to clean out old items that are no longer needed, including emptying deceased estates, with a view to re-homing or recycling as much as possible through the Green Connect Op Shop and Recycling Hub. This includes working with local charities to give items directly to people in need and recycling through more than 35 waste streams such as scrap metal, e-waste and textile recycling.

BASIC REPAIRS AND PAINTING

Green Connect can provide a cost-effective maintenance service if basic repairs or painting are needed. Please contact us for more information.
